## **LEADERSHIP TEAM NAMED FOR A. D. WILLIAMS ENGINEERING INC.**

March 31, 2008

EDMONTON - The Board of Directors of A. D. Williams Engineering Inc. wish to express gratitude for the expressions of condolence that have been forthcoming since the tragic events of March 28, 2008. The depth of our loss goes beyond that of colleagues. We have lost our friends.

Even as we come to terms with these circumstances we are looking to take care of our staff and clients. We are relying on the skilled and dedicated team that has been assembled over the past 30 years. A. D. Williams Engineering Inc. was founded and is centered on our sense of family, business ethics, and integrity. We will rely on those same values as we face the future.

Naseem Bashir, P.Eng., has accepted the position of President and will assume the role immediately. After graduating from the University of Alberta alongside Reagan Williams, P.Eng., in 1991, Naseem immediately joined A. D. Williams Engineering Inc. For the past 17 years Naseem has worked closely with Reagan and was closely mentored by founder Allen Williams, P.Eng. When Reagan assumed the position of President in 2005 Naseem was appointed Vice President and has also managed the Calgary branch.

“This company has always been built on relationships,” said Naseem. “We will continue to rely on those trusted advisors who have been part of the A. D. Williams Engineering Inc. family.” Deloitte has been working with the firm over the past number of years and will continue to work closely with the new leadership.

“I find great comfort in knowing that we are surrounded by many talented and committed people who will help me in continuing along the path set out by both Reagan and Allen,” said Naseem.
